In the Matter of)
)
) MM Docket No. MB 05-10
Amendment of Section 73.202(b),)
Table of Allotments) RM-11140
FM Broadcast Stations)
(Monument, Oregon))

To: Chief, Allocations Branch
Policy and Rules Division
Media Bureau

COUNTERPROPOSAL AND REQUEST FOR SHOW CAUSE

SSR Communications Incorporated ("SSR") hereby submits this Counterproposal and Request for a Show Cause Order in the above-mentioned proceeding, to (1) assign FM Channel 280C (in lieu of the Klickitat Broadcasting proposal for FM Channel 266A) to Monument, Oregon, as that community's *first* FM broadcast service; (2) add FM Channel 265C to Prairie City, Oregon, as that community's *first commercial* FM broadcast service; (3) substitute vacant FM Channel 247C1 for FM Channel 281C1 at Weiser, Idaho; (4) substitute FM Channel 282C2 for FM Channel 281C2 for station KWPK at Sisters, Oregon, by way of an Order to Show Cause to Thunderegg Wireless, L.L.C. (licensee of KWPK), directing KWPK to commence operation on a new channel; and, (5) add FM Channel 267C1 to Prineville, Oregon, as that community's *second competing* FM broadcast service, as follows:

<u>City</u>	<u>Present</u>	<u>Proposed</u>
Monument, Oregon	266A (see 05-10)	280C
Prairie City, Oregon	---	265C
Weiser, Idaho	280C1	247C1
Sisters, Oregon	281C2	282C2
Prineville, Oregon	255C3, 271C3	255C3, 267C1, 271C3

No. of Copies rec'd
List ABCDE

0 + 4

This composition of allocations would characterize a *preferential arrangement of the FM Table of Allotments*. As the original petitioner (Klickitat) only proposes a Class A facility, SSR's counterproposal would bring superior Class C, 100,000-Watt service to Monument. Additionally, FM Channels 265C at Prairie City and 267C1 at Prineville are mutually exclusive with the Klickitat petition. The Notice of Proposed Rulemaking (NPRM) for MB Docket No. 05-10 seeks comments related to the use of FM Channel 266A at Monument. Thus, SSR respectfully requests that the Commission consider its arrangement of allotments as a counterproposal to MB Docket No. 05-10. SSR also expresses its interest in the three proposed vacant allotments contained herein, and intends to file applications (Form 301) for Construction Permits to operate new FM broadcast stations at Monument, Oregon, Weiser, Idaho, and Prineville, Oregon, and, if authorized, will build out the stations promptly.

SSR believes that it has brought forth a superior counterproposal to the Commission with the addition of FM Channel 280C to Monument, over the Klickitat's proposed FM Channel 266A facility. If the original petitioner is particularly interested in a Class A facility, however, SSR would submit that there are many alternate Class A facilities available to Monument (for example, FM Channels 224A, 237A, 245A, and 247A are all potential candidates; see attached Engineering Exhibit 6 for more information). After a careful study of economic feasibility and terrain impediments to line of sight signal coverage, however, SSR believes that full Class C facilities at Monument and Prairie are would provide those communities with the best possible FM service, as would a Class C1 facility at Prineville.

REQUEST FOR ORDER TO SHOW CAUSE

In order to facilitate its Counterproposal, SSR respectfully requests that the Commission issue an Order to Show Cause to Thunderegg Wireless, L.L.C., licensee of station KWPK at Sisters, Oregon, stating why KWPK should not be modified to operate on its first adjacent channel, or to cease broadcasting on FM Channel 281C2 and renew operation on FM Channel 282C2. SSR states that, should it become the successful applicant for FM Channel 280C at Prairie City, it will reimburse Thunderegg Wireless, L.L.C. for all of its verifiable, legitimate, and prudent expenses related to the change in its facility, including, but not limited to, transmission facilities, stationary, imaging, et cetera. Concurrent with its submission to the Commission, copies of this document have been served on Thunderegg Wireless, L.L.C., and Horizon Broadcasting, L.L.C., by first class U.S. Mail, postage prepaid, to the following addresses:

Thunderegg Wireless, L.L.C.
C/O Steven Seward
1500 4th Avenue
Suite 600
Seattle, Washington 98101-1670

with Copies to:
Horizon Broadcasting Group, L.L.C.
2484 North Hosmer Lake Drive
Bend, Oregon 97701
(Pending assignee to the KWPK license)

Note: the proposed modification of KWPK can be made upon consideration of the Auburn, Alabama decision (MB Docket No: 01-104). This Order to Show Cause is necessary to make an allotment in SSR's Counterproposal. See more details below.

IMPLEMENTATION

Allocation studies demonstrate how the proposed new allotments are related. SSR first proposes to allocate FM Channel 265C to Prairie City as that community's *first commercial* FM broadcast service. Prairie City is a *bona-fide* community for allotment purposes. As of the 2000 U.S. Census, there were 1,080 persons living within the incorporated city limits of Prairie City. Prairie City has its own municipal government,

city hall, police department, fire department, school district, private school, numerous churches, and U.S. Post Office (zip code point: 97869). These indicia are generally enough to prove worthiness of an allotment. FM Channel 265C would provide Prairie City with its first full-powered community radio voice. There are many natural terrain sites near Prairie City that would support a full Class C operation without the need to construct 600 Meter tower. FM Channel 265C is mutually exclusive with the Klickitat proposal to bring FM Channel 266A to Monument, hence SSR's request for the Commission to instead add FM Channel 280C to Monument.

FM Channel 280C can be allotted to Monument (in lieu of FM Channel 266A) with a Class C facility, providing maximum coverage to the community and also having line of sight signal propagation. This change also requires the substitution of FM Channel 282C2 for 281C2 for station KWPK at Sisters, Oregon. Even though there is an apparent shortspacing to station KMCQ on FM Channel 283C at The Dalles, Oregon at this site, it need not be considered under the Commission's Auburn, Alabama decision (see MB Docket No. 01-104).

Lastly, as a result of substituting FM Channel 280C for FM Channel 266A (and any other Class A facility that the Commission may consider, such as FM Channels 224A, 237A, 245A, or 247A) at Monument, FM Channel 267C1 can be allotted to Prineville, Oregon, as a new local service.

CONCLUSION

SSR has timely filed its counterproposal for MB Docket No. 05-10, as the last day for comments on the matter is March 21, 2005.

In the event that the Commission grants SSR's counterproposal, SSR asserts that it will file applications (Form 301) for Construction Permits to operate new FM broadcast stations at Monument, Oregon, Weiser, Idaho, and Prineville, Oregon, and, if authorized, will build out the stations promptly.

Dated: March 21, 2005
